

How to Take a Leaf Sample:

- Take samples from the top, middle and bottom of the inside and outside of 4 or 5 plants and send them together as one sample.
- If using compost teas, send separate samples from before and after application (or from treated and untreated plants). When sending after-tea samples note the time between treatment and sampling (1/2 hour minimum).
- **Put leaf samples from different treatments in separate plastic bags.**
- Complete the sample information the Submission Form with as many details as possible.
- Mark each of your samples with its sample ID.
- Pack your samples and mark your sample pack clearly with your name and address.
- Send your sample pack to SFI by **courier or overnight express post**. We must receive samples within 3 days to do Active Bacteria and Active Fungi assays. **Please Note:** SFI cannot guarantee the timely analysis of samples that arrive on Friday or a day preceding a holiday. **Please Note:** SFI cannot guarantee the timely analysis of samples that arrive on Friday or a day preceding a holiday.
